Field Related Work Experience:

March 2008 – Present

Frank's Video TV Service

TV/Computer Technician & IT Help Desk:

A small TV Repair business, fixing TVs and computers. Using manufacturer's websites to troubleshoot TVs, order parts and keep track of credits. Also being the office tech, with troubleshooting network equipment, printers, and co-worker's computers. Answering the phone and interacting with customers also in the shop was a requirement on a highly frequent basis throughout the day. Finally, calling various warranty companies and manufacturers was also a frequent necessity. Soley designed & developed their new website. Complete with a setup-service page, a description of offered services and a interface that displays ALL authorized manufacturers.
